What type of serrations (if wanted) would you like?

- Flat Serrations (2D)
- Ramped Serrations (3D)

If being cut for an optic, where would you prefer the rear iron sight to be relocated? ***Note! Rear sight will require a Glock pattern/compatible rear iron sight.**

- In front of the optic
- Behind the optic
- Do not cut for a rear Iron Sight

On the pictures below please try and best illustrate how you would like your slide to be cut by drawing on the slide. Indicate if cuts are windows or pockets.
